**The Majestic Hill Station**

Supriya Greensrushti has come up with plots among nature for people to indulge themselves in weekend farming, giving you the chance to spend the days which follow a hectic week farming with the Jambha Stone and Konkan Red Soil.

## **The Weekend Farming Concept**

Supriya Greensrushti has been developed with the purpose to make the world meet themselves by being in the surrounding of greenery and mountains. We want people to finish their hectic week with something that gives them purpose by growing Organic Foods & Fruits like Turmeric, Ginger, Strawberry & Potatoes etc. with their own Efforts .

The reason we chose the concept of Weekend Farming is because we want people to have a space where they can be themselves and learn things about themselves, while upbringing a generation that appreciates nature as much as their ancestors did.

## Live the Village Life

Village-life is plain and simple. Here, there is no din and bustle of the city. Everything is calm and quiet. People are in direct touch with nature. Most of their time passes in looking after fields and cattle. They are religious and pious. They devote much of their time to prayer and to singing in praise of God. They enjoy pure air. They also get fresh vegetables and fruits. So by this concept we want you to live, feel & enjoy this Village Life with your children.
