Green Home

A SMART LIVING AMID THE BOUNTIFUL NATURE

A Green Home is a jungle abode you might have seen in Hollywood classics. With a complete wooden craftsmanship, a fireplace and large sitouts...this is where you could experience the best of your leisure. Imagine lying on a relaxing chair looking out through a large window & with a Coffee mug in your hand! Here Sunrays would come to caress you in the morning and chirping of birds would invite you to set off for a fascinating trail down the valley.
